Computer Science Courses Fall 2010

Following is a list of COS courses offered in the Fall 2010 semester.

This list was generated on 2010-03-25.

This information is offered with *absolutely no guarantees*. **Use it at your own risk**. Students should be sure to **verify all details in [MaineStreet](#)** and, more importantly, with their academic advisors.

Also available is a [PDF version](#) of this document, suitable for printing.

- COS 103 - Introduction to Spreadsheets
- COS 104 - Introduction of Presentation Software
- COS 115 - Web Design in HTML
- COS 120 - Introduction to Programming I
- COS 125 - Introduction to Problem Solving Using Computer Programming
- COS 140 - Foundations of Computer Science
- COS 198 - Topics in Computer Science
- COS 211 - Principles of Data Processing
- COS 221 - Advanced C++ Programming
- COS 226 - Introduction to Data Structures
- COS 250 - Discrete Structures
- COS 301 - Programming Languages
- COS 431 - Operating Systems
- COS 440 - Computer Networks
- COS 451 - Automata, Computability, and Languages
- COS 460 - Interactive Computer Graphics
- COS 470 - Introduction to Artificial Intelligence
- COS 480 - Database Management Systems
- COS 497 - Computer Science Capstone 2
- COS 499 - Senior Project
- COS 550 - Theoretical Computer Science I
- COS 570 - Topics in Artificial Intelligence
- COS 580 - Topics in Database Management Systems
- COS 598 - Advanced Topics in Computer Science
- COS 599 - Graduate Project
- COS 699 - Graduate Thesis / Research
