This exercise augments our continuing classroom discussion of preliminary project presentations.

1. List the members of your group below. Underline your name.

2. For each presentation, note the following:

   (a) Identifying information, including title and advisor.
   (b) Focus of the work.
   (c) Main contribution.
   (d) Three strengths of the technical contribution.
   (e) Three weaknesses of the technical contribution.
   (f) Three strengths of the presentation.
   (g) Three weaknesses of the presentation.
   (h) Proportion of time spent on material accessible to a general audience, technically inclined people, computer scientists, and experts.
