Today: Multivalued dependencies. §§ 3.6–3.9.
Next class: ER modeling. §§4̃.0-4.4.
Reminders: Newsgroup. Reading. Homework. Quiz.

1. List the members of your group below. Underline your name.

2. Provide the smallest possible instance of a relation that *violates* the multivalued dependency $AB \twoheadrightarrow CD$.

3. Decompose, as needed, the schema of Question 2 to 4NF.
